Details

**Risk description:**  
This is the list of ports that have been found on the target host. Having unnecessary open ports may expose the target to more risks because those network services and applications may contain vulnerabilities.

**Recommendation:**  
We recommend reviewing the list of open ports and closing the ones which are not necessary for business purposes.

### No vulnerabilities found

port 80   port 443   port 8080   port 8443
